Engineering

K J somaiya College Of Engineering

08/2019 - Present

Sem 3 9.59 CGPA

Courses

- BTech in Information technology

HSC

Pace Jnr Science College

05/2017 - 06/2019

Mumbai

Courses

- Science
- 80% in 12th

PROJECTS

Abhyantriki Event Website

- <https://kjsce-abhyantriki.org/>
- Abhyantriki, a tech event of kjsce where this year indian air force, isro, and many more participated this year conducted online. for this online conduction of the event, i was the part of the team who made the website where i gained hands-on experience of working on a large scale project and was able to apply my skills to give back to my community.

Blog site

- <https://blogs.kjscecodecell.com/>
- I, as a part of tech team in kjsce codecell council, worked on making a blog site to spread technical knowledge among my fellow students helping them gain insights on latest technological trends. from designing the site on figma to converting design to code gave me the satisfaction seeing a thought turn into reality

Corona Growth Rate Tracker

- <https://github.com/twilight-warlock/corona-rate-tracker/>
- This application was a practice project created to graph the corona growth not only country specific but also all over the world helping everyone to visualize the effects along with gaining some experience in reactjs.
